In response to the request made in reference document 1), and considering that the renewal process must be postponed due to the limited availability of inspectors and due to operational and administrative constraints within the DGAC, and that the new audit dates for the recognition renewal process will be scheduled after the expiration date of the current certificate, the DGAC has resolved to grant, on an exceptional basis, an extension of the current expiration date of the Recognition Certificate and Capability List (Ratings and Limitations) of CMA N° E-759 "XTREME AVIATION LLC.", as well as the Capability Lists of its Auxiliary Bases, until the completion of the recognition renewal process has been completed.

The foregoing is contingent upon the continued validity of the current Air Agency Certificate, its Operations Specifications, and the Repair Station / Quality Control Manual, as certified by the Federal Aviation Administration (FAA).
